About This Content

Kingdoms brings you a complete system for creating cities and founding and ruling a nation of your very own.

Designed for the 5th Edition rules, Kingdoms provides rules for settlements of every size, from tiny wayside villages to a sprawling metropolis, detailing prosperity and corruption, law and learning, and a wide range of government types and special characteristics. In addition, it includes a complete system for founding a kingdom, from exploring and claiming territory to building and developing cities and issuing edicts to manage your kingdom's economy and stability and for building up the loyalty of your subjects. You can play with a simple, abstract system or use any number of optional rules to develop trade, diplomacy, and more, and Kingdoms also includes a simple system of mass combat, allowing you to build armies to defend your kingdom from enemies or raise a mighty crusade to conquer all who stand before you. Your heroes have beaten the bandits, overcome the orcish onslaught, and defeated the dragon, but in between their adventures your heroes would rather return home to a mighty throne instead of a warm campfire, now they can with Kingdoms! Grab this fantastic 5E supplement today and Make Your Game Legendary!

Fractal is actually a very stylish looking game but it's missing a few important things; a tutorial. No, the game isn't that hard to figure out, but ask me what the power-ups do and I honestly couldn't tell you. Most of the times I just try to connect them with the other tiles, obviously, and it triggers several combos. It usually takes several tries to finish a level. A tutorial is A MUST. Another thing that bothered me is that if I notice things aren't going my way, I normally ike to retry a level. There's no button for this. There's only a pause button. So in the end I have to click up to 20-30 times in order to restart a level. This definitely needs to be implemented.

Also, the text is a bit blurry, even on extremely high quality. If the developer can fix it, it will look smashing. I like the slowmotion endings, they look really cool.

Now, would I recommend this game ? Yes and no. If none of my complaints is fixed, then no. If they do decide to fix them; yes.

[Rating: 70\/100]. Oddly enjoyable~. only got it because i got a coupon...the games is boring. Just Now Started This One. Ze Operator Spake: If GOD Be With You, Who Can Be Against You? Is It Not That GOD Es TOTALLY With You When You Are Born Again? Yea, For Ye Be ONE Of His.. Lame. Feels unfinished. Fleeing damage is a dumb mechanic. No storyline. Pointless and boreing.

Bridge constructor with a bit of Trials:Evolution.

It's alright. I wouldn't pay full price though.. Sweet and simple endless runner\/racer where you keep moving forward, picking up rings and power-ups as you avoid all obstacles.
There is a nice neon aesthetic to the game and a sweet soundtrack that keeps the pace up.

I don't imagine playing this for long periods at the time but it's a good game to do a few runs on every now and then.

The only downside is that there is absolutely no controller support.. They gave Watson a walk animation.. This loco has a quite unique purpose but driving it feels familiar. It's not really different from regular passenger services because you still stop at stations and open doors. Except that no one enters. Sadly how the mail is handled is left for one's imagination, if you will. The loco lacks internal lighting which is common for addons this old. But the overall visuals and sounds are fine. I also wish there were more scenarios included. I still recommend it though, at a discount.. If you've already completed Illusion don't worry about this expansion. Completed within 10 minutes much like many others, a little too easy for the amount of detail put into the map. Still great puzzle design if you are looking for that little bit extra.. awful
kb+gamepad input, no touch controller support
only few fractals to choose from

the EMERGENCE fractal app is much better
. umm.....worst game on steam? This game has been in early access forever, all the devs left except 1 guy. There is no fixing this game as there is way to much to do, you can't even do anything in game, the graphics are terrible. Nothing works at all, watch a youtube review of it, its ridiculous how the one dev is still trying to keep this going. Got this game free, it should have also came with free money
